## DR. MYA NANDAR

Ehrenamtlicher Einsatz in Irrawady Delta

Januar 2011

Hello dear Mathias,

How are you ? i hope both of you ( felix ) are fine. it has been a long time we are out of contact, last months, i went on a trip to myanmar - thai border to treat people there, most people there could not speak myanmar, so i had to work with a translator, ( like you in kalaw ) it was a great fun, lots of work and patients, it made me reminds me of you , felix and our trip in kalaw.

are you preparing for exams?

for me , i am back to my normal routine in my clinic, after the trip and preparing for another trip with your mobile unit .

best wishes,  
sincerely,  
nandar

Einweisung in die mobile dentale  
Behandlungseinheit

dear mathias,  
how is everything ?  
i hope u r doing fine, for me this week is a  
very busy and happy one,  
i went to a school for the poor children  
near the national village ( we visited there  
together with Felix , i hope u remember  
the place,)  
the school building was donated by a man  
from Germany, now run by a Buddhist  
monk , 300 children are in the school,  
i went there and gave dental check up and  
treatment to them,  
i brought the machine ,  
at first , i had some difficulties, but now i  
become familiar with the machine well,  
it is a great fun for me to do so,  
they never had dental treatment before,  
i did extraction , filling with material you  
left ,  
it is unforgettable experience for me.  
i always thank you and Felix for it , you  
two and the machine have helped my  
dreams come true,  
i hope you like to see some photos in the  
attached file.  
best regards,  
nandar  
Pls convey my best regards for  
Felix .  
by the way , i can lift the machine well  
now
